---

## PROFESSIONAL SUMMARY

---

As a passionate Full-Stack Developer, I specialize in building cross-platform applications with Flutter and scalable backend solutions using NestJS. I leverage modern development best practices and cloud integration platforms like Firebase and Google Cloud to deliver robust mobile and web experiences.

## WORK EXPERIENCE

---

### LabsToGo

May 2024 - May 2025

*Flutter, Next.js, NestJs Developer*

*Virginia, USA*

- Developed and maintained high-quality mobile applications, enabling users to conveniently book on-demand medical services.
- Built a seamless booking experience across iOS and Android platforms with the Mobile Medical Lab Website using Next.js.
- Collaborated with product managers and backend developers to optimize application performance and user experience.

### Celebreak

November 2024 - February 2025

*Flutter Developer*

*Barcelona*

- Contributed to TownSquare, an application fostering community interaction among users.

### Avyan Global

June 2022 - March 2024

*Flutter Developer*

*Nueva Ecija, PH*

- Developed Alt Switch, a blockchain-based mobile application, gaining hands-on experience with RESTful APIs and decentralized technologies.

## EDUCATION

---
